

The Corner of our Affiliated Societies

2010 – TEN Years of Sexual Medicine in Romania

The Romanian Association for Sexual Medicine (A.M.S.R.) has chosen Sibiu (Hermannstadt) a special place from

Romania and the European Capital of Culture in 2007 – to host the 10th years Jubilee Conference. Sibiu, an old citadel which brings together many cultures and ethnicities and express proof of millenary existence and evolution was a good host.

The program was very busy: meet the expert session, state of art lectures, podium sessions, interactive sessions, clinical cases and interactive courses were organized during the three days of the conference (11th – 13th of April).

Over 200 participants join the conference: general practitioners, urologist, endocrinologist, gynaecologist, psihiatrist, dermatologist and psihologist – the conference was organized in collaboration with The Romanian Federation of Psihotherapy.

A special point of interest for the participants was the ESSM Conference, the 6th edition. The ESSM Speaker was Yacov Reisman with an outstanding

presentation regarding life style, health and urological problems. The audience was very impressed by the content of the lecture and asked a lot of questions. Mr. Reisman's presentation proved once again the importance and benefits of the AMSR initiative supported by ESSM too.

Another topic in the conference programme was the ESSM Affiliated Societies Conference which happened for the second time this year.

The guest was Ferenc Fekete from the Hungarian Society for Sexual Medicine. He presented the past and the present of the Hungarian Society for Sexual Medicine using a lot of pictures and funny stories. I also would like to thank the local organizing committee who spent his time and knowledge for the success of the event. Once again, all the professionals interested by sexual medicine were together, learning from each other, trying to do our best for the patients.

Next year, the 11th National Conference of A.M.S.R will be held in Cluj Napoca in the heart of Transilvania, between 10th – 12th of April.
